

CREDIT CRUNCH – WHAT CREDIT CRUNCH?

I wanted you to be one of the first to know about a very important event that is taking place in February. This may be the only time you are invited to this private meeting, so please do not ignore this invitation.

We all know that 2009 and perhaps the next several years are going to be tough for everyone, no one will escape the dire economic climate; some will face hardships that have not been experienced before.

So wouldn't it be great if you could find a way of ignoring the world recession, high cost of living, falling returns of savings, high mortgage costs and cock a snook at the bank manager, well you can if you read a little further...

Now you can avoid the doom and gloom forever!

Join me at my home in Somerset in February, that's when Financial Trader and trainer Hugo Lawrence will be holding his next training seminar

You could learn how to trade and become a

Financial Market Trader

If you learn how to trade the markets; you could make yourself a Six Figure Income without leaving home! All you'll need is a PC and broadband connection...

Don't worry, this doesn't mean you need £000,000s to get started, in fact you only need a few hundred pounds and you won't be buying any shares in bombed out corporations either, No, not ever!

Now it's your turn to change your lifestyle for good!

'NO Previous Experience Necessary!'

When you learn Hugo's Financial Trading Secrets you could write your own pay cheque every month and escape the worldwide economic gloom forever.

What's more, you'll receive his mentoring support service entirely

FREE of charge for the next 12 months.

If you thought trading was too hard to learn - think again...

Hugo will introduce you to a new and easy way of trading the markets because –

...It's based on visual trading...

That means you actually trade what you see, you'll know when to trade and when to exit a trade without the specialist knowledge you may have thought you'd needed to trade the markets!

It really doesn't matter whether you're a house wife, builder, doctor, taxi driver or a retired executive; Hugo can train you to trade using his simple **visual trading strategy** called...

THE MAGIC TRADING FORMULA

The world has changed forever, no longer can we rely on making something to generate cash, our manufacturing industry has all but gone and only those that help themselves will escape static or falling income, redundancy and the economic fallout. Very few people know how to do this, but many would like to know the secrets of being wealthy.

Some people manage to become wealthy whatever the economic circumstances, have you ever wondered how?

Well now it's your turn...only those that seek an alternative lifestyle will be able to generate a six figure income or more and the luxury lifestyle that goes with it, are you one of those people? Can you recognize an opportunity when it's offered to you?

Financial trading is one of only a few ways that you decide what you want to earn each month; this is your chance to stop someone else deciding your income for you for good and you don't need lots of cash to get started either!

Here's an example...

Let's say that you built up the amount you staked on a trade to just £20 per point and that you only wanted to make 20 points per day, so 20 points X £20 per point amounts to £400 per day X 5 days per week, that's £2,000 per week! Now let's assume that you only trade for 46 weeks each year, so that's 46 X £2,000 makes **£96,000 per annum tax free!**

Do you think you could get by on that?

The most important points are that:

(A) You would never lose more than your stop loss, that' worked out at just 3% of your capital and...

(B) Most of these trades take less than one hour (some in a matter of minutes) to achieve your target, so you're don't have to sit in front of your PC all day to make £400.

Will you take up the challenge? Do you really want to get ahead?

If so you must apply quickly to join Hugo on his infrequent seminars, perhaps only one more will be held this year and that's won't be until September, if at all.

Hugo has to restrict the number of people he trains in order to give everyone who joins his private members trading club the very best attention and support for the next 12 months.

I seriously suggest you don't miss this once in a lifetime opportunity to learn something that could change your life forever.

Training places are strictly limited, so if you want to reserve your place on the next seminar in February 2009, you'll have to be quick, only 7 places left as I write.

To make sure of your place, call me now and book your place today.
